 By Dot Jordan
In memory of Gib Yeargin
 By Thomas and Julie Ogburn

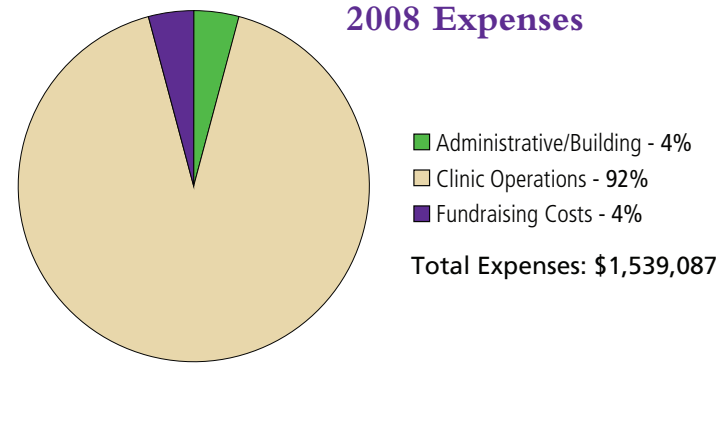

Three events during the 2008 year effected the number of patient visits conducted. First, the move to a new 2-story facility presented operating challenges that reduced the number of patient visits. Second, as is common in medical practices, the conversion to an electronic medical records system presented a learning curve for providers and thus a reduction in efficiency. Lastly, two staff changes in medical staff decreased the number of patient visits until their replacements were found. AMM is confident that both the new clinic and electronic medical records system will increase patient visit efficiency and we will resume the pace of growth in patient visits in 2009.

	Patient Visits	Patients on Record	Cost/Patient Visit
2003	4,015	1,400	\$102
2004	6,545	2,700	\$91
2005	9,021	3,789	\$83
2006	11,104	4,800	\$80
2007	13,205	5,400	\$78
2008	9,685	6,500	TBA
